

# Survey of civil society organizations

## Introduction

Welcome to this survey on UN development cooperation activities.

The aim of the survey, which is conducted in partnership with BetterAid, a network of over one thousand civil society organizations around the world, is to give CSOs an opportunity to provide feedback, with a view to improving the performance of the UN development system at the country level.

The survey report will serve as an important input to the 2012 quadrennial comprehensive policy review (QCPR) of the General Assembly (GA) of UN operational activities for development.

The QCPR is the mechanism through which the GA assesses the effectiveness, efficiency, coherence and impact of UN operational activities for development and establishes system-wide policy orientations for the development cooperation and country-level modalities of the UN system.

The survey respondents are officials of civil society organizations who work closely with one or more UN agencies at the country level.

Please note that the software allows you to exit the questionnaire and reopen it later, provided you use the **same computer**.

Please complete the questionnaire by **24 February 2012**.

Responses and comments will be treated in **strict confidence**. The reporting will not contain any data or statement from which a reader can identify you, your organization or the country where you are working. Responses will be amalgamated by groups of countries.

Please contact Agust O Agustsson at ([agustsson@un.org](mailto:agustsson@un.org)) for any questions.

Thank you for your cooperation!
